Subject: Fwd: Filtering dissolved aluminum samples for Crandall Canyon
CC: OGMCOAL

Steve,
It looks like Dana got the OK from Jeff Studenka to have Horizon Laboratory filter the aluminum sample upon receipt.

Hello Kevin,
I just spoke with Jeff about the Aluminum sample. He is ok with Brandon filtering the sample in the lab this time. I will keep track of the time the sample was taken and the time that Brandon filters the sample. I am hoping to be set up with everything next month. Thank you for being so patient!
Dana
